Dear Secretary Polaha,

I observe at <http://www.treestreeets.us/page/sno-bylaws> that the SNO Bylaws have very recently been changed. I received no notice of any proposed changes.

Will you please send to me **immediately** all documentation related to the recent changes in the Bylaws ?

Will you please also send to me before the end of this week copies of every 2011 SNO document, file, or paper not currently available on the SNO website (www.treestreeets.us) including but not limited to : resolutions, agendas, minutes, committee reports, notices, financial reports, the list of current SNO members, meeting attendance lists, City permits received and applications for such permits (such as Yard Sale), letters sent and letters received, evidence considered, and all emails and other correspondence related to SNO activities/decisions/business ?

This request is based not only upon my standing as a current member of SNO but also upon my standing as a current member of the SNO Executive Board. Your assistance will be appreciated.

Sincerely,
 MacBryan

Subject: Urgent request for SNO information in possession of the Secretary 3 July 2011

Dear Secretary Polaha,

I have received no SNO documents regarding the Call issued for Sunday 26 June 2011, one week ago. Of course I am curious, and I also need to know what transpired. As SNO Secretary, will you please send to me tomorrow the Minutes and all the available information regarding that gathering, which I announced in advance that I would be unable to attend? I will be grateful for your efforts.

The information I am seeking includes, but is not limited to, the following :

- (a) when, by what method, by whom, and to whom the Call for the special meeting was delivered;
- (b) the names of the officers and committee chairs physically present together in the meeting room at the Holston Conference Center when business was discussed and when a vote was taken;
- (c) whether discussions were broadcast by telephone or other method, and whether any votes were cast/accepted by letter, proxy, telephone, email, etc.;
- (d) in what manner and by whom the charges and specifications against the President were presented, as well as the content of those charges/specifications;
- (e) in what manner the proof against the President was presented, as well as the content of that

proof;

(f) the standard used to adjudge whether or not the President might be incapacitated or negligent;

(g) at what time the 26 June 2011 gathering was called to order and by whom, and at what time it adjourned;

(h) the extent of the role played by Howell Sherrod as Referee, including any rulings, as well as documentation of any authorization for a Referee;

(i) any rulings by the Chair;

(j) any motions made, actions taken, or decisions reached, with tabulation of all votes according to method (in person, proxy, telephone, email, letter, etc.), including abstentions.

Any additional information will be much appreciated.

Sincerely,
MacBryan
